GLADIOLUS

FALL AND WINTER, 1954-55

Again we present a choice selection of fine modern glads. Each year we try out most of the promising new varieties, selecting only the best for our listing. Large-size bulbs in some varieties will be scarce this year, but remember that a medium bulb of number 3 size will give fine results. We always put in number 3 for mediums, as long as they last. Large bulbs are usually assorted 1's and 2's, with as many number ones as possible. Our bulbs are clean and healthy; no botrytis or other diseases in our dry climate. Satisfaction is guaranteed. Fall orders are filled in the order received, but not necessarily shipped in that order. Southern and western orders are usually shipped first; eastern orders after danger of winter freezing is past.

Would you like to receive a bulb or two of a fine new variety at very little extra cost? With your order of \$5.00 or more, if you will include enough extra to cover postage, or will agree to send us (after you receive your order) the amount of postage shown on the package, we will include with your order a new 1954 or 1955 introduction of value at least THREE TIMES the cost of the postage. This is in addition to our usual extras. If you wish to refund the postage to us and receive this special new bulb, just check the space provided on the order blank.

BLUE DEVIL (Larus '51) 479 (EM). Novelty blue-violet that is very popular with most people. A little on the bizarre side, with its red-violet darts on white throat. Striking.

BOISE BELLE (Roberts '48) 433 (ML). One of the best exhibition glads, opening 10 to 12 lovely ruffled pink and yellow flowers at once. Its opening and holding qualities often give Boise Belle the second-day championship; it won this award in 1954 at the Central International and Eastern Oregon shows, among others.

COPPER LUSTRE (Pazderski '53) 580 (EM). Huge smoky bronzy-rose with deeper flecking. An attractive variety as well as one of the very largest. Bound to become popular.

L .75, M .50, S .25, Blts. 2-20, 10-.75

CORAL ACE (Bunn '52) 533 (EM). An orange-salmon sport of Burma; deeper red-orange throat. A most attractive color, and seems to grow better here than Burma.

DARK DAVID (Morgan '51) 554 (EM). Not the blackest of the maroons, but certainly one of the best. Opens 6 or 7 very large dark red flowers on fine tall spikes.

L .25, M 2-30, S 3-25, Blts. 20-25

DAVID WARR (Warr '53) 436 (E). Ruffled orange-scarlet that made a good impression with us. Should be a good early cut flower, as it has a nice bright color and good growing habits.

L .75, M .50, S .25, Blts. 10-.75, 100-\$6.00

DELIGHT (Roberts '54) 430 (M). Lovely light creamy salmon with a lighter center. One of the most heavily ruffled varieties grown, and one of the most beautiful. Opens 6 or 7 at once on average spikes.

EARLY RED (Knight '53) 450 (E). We are sold on the value of this fine early cut flower red. It opens and holds up well in water, and has a lovely clear color. Opens 6 or 7 florets on graceful, straight stems.

L .50, M .35, S .20, Blts. 4-20, 10-40

EARLY SNOW (Roberts '52) 400 (E). This was our best early white for cutting last summer, blooming in early July along with Friendship, Early Red, etc. Early Snow opens from 6 to 8 large lovely frilled flowers on rather willowy but straight stems. May show a slight pinkish tinge at times. Fine propagator.
L \$1.00, M .75, S .50, Blts. 2-20, 10-.75, 100-\$6.00

EDITH WARR (Warr '52) 542 (M). A huge light pink that will give King Size a battle for "largest florets" honors, and is also a prettier glad, we think.

FALCON (Woods '49) 567 (EM). Lovely medium lavender with markings. Petals are fluted and nicely recurved. Our nomination for the most orchid-like glad.

L \$1.50, M \$1.00, S .75, Blts. 2-25, 10-\$1.00, 100-\$8.00

GLAD TIDINGS (Arenius '52) 462 (EM). A bright shade of cerise-rose that is different and most appealing. Florists love this color; combines well with roses.
L .75, M .50, S .25, Blts. 4-25, 10-50, 100-\$4.00

GOLD (Marshall '51) 412 (E). Ruffled deep yellow of heavy substance and unsurpassed color value. Tall stems, though the flowerheads would be better with a few more buds.
L .25, M .20, S 2-25, Blts. 10-20

GOLDEN BOY (Secrest '54) 310-312 (EM). A very nice new yellow; medium-deep in tone as it grows here. We had a few spikes crook slightly, otherwise very good growing habits. Will be a heavy prize-winner in its class.
L \$1.50, M \$1.00, S .75, Blts. 2-25, 10-\$1.00

GOLDEN DAWN (Savelief '51) 410 (EM). Medium to light yellow that makes good spikes with up to 7-8 or more open at once. One of our favorite yellows for cutting.

HARRIET (Everett '51) 370 (EM). Best and prettiest 300-size purple. Good color, slightly ruffled. Flowerhead bends some when fully opened.

L \$1.00, M .75, S .50, Blts. 2-.25, 10-\$1.00, 100-\$8.00

LARGO (Roberts '53) 411 (M). Exquisite in color, the large yellow center is touched with pink at the edges only. Usually makes rather short flower heads, and will appeal mostly to those glad fans who appreciate lovely color combinations. Marvelous for arrangements and corsages.

L \$1.00, M .75, S .50, Blts. 2-.20, 10-.75, 100-\$6.00

MRS. RHODA PETERSON (Menzie's '51) 582 (E). Plant this early-blooming smoky as early as possible or as late as possible for best flowers. Beautiful when planted in June for fall blooming, as extreme heat causes burning and fading. Large rosy-gray with small white throat.

PINK DIAMOND (Fischer '54) 440-460 (E). Delicate light orchid-pink with small greenish-cream throat; a very beautiful combination. It will open 7 or 8 medium-large flowers on graceful stems. Nicely ruffled and very lovely.

PINK HARMONY (Tyndall '54) 540 (VE). A grand early pure pink with lighter throat. Wonderful commercial prospect. Just about the first thing we had in bloom last summer. Good color and fine spikes; 6 or 7 large flowers open.
L \$2.00, M \$1.50, S \$1.00, Blts. .25 each, 10-\$2.00

PINK PRIDE (Arenius '52) 541 (EM). A real exhibition variety and a fine cutflower glad. Its color—medium pink with soft red feather—is very good for a giant variety. Flecks hardly any for us. Many open on fine tall spikes. We like this a lot.
L .75, M .50, S .25, Blts. 4-.25, 10-.50, 100-\$4.00

POINSETTIA (Weeks '52) 450 (M). Fine clear scarlet red with practically no markings. Excellent cut flower. Bulblets a little hard to sprout but seem to be improving in this respect.

MINIATURE AND SMALL GLADS

The small varieties are becoming increasingly popular for table centerpieces, small bouquets, corsages, etc. They fit in so well in many places where the big glads would be out of place. Try a few of the modern small glads and see why they are enjoying such popularity.

ALECIA (200). The finest new miniature in our 1954 trial garden. A bewitching pure white, even to the stamens, with lightly frilled rounded florets. Lovely!

L .75, M .50, S .35, Blts. 2-.20

ATOM (236). Stunning scarlet red, with each petal bordered white.

L 2-.25, M 3-.25, Blts. 50-.25, 100-.40
